
**Two new partners and registration
for the Hydrogen Business For Climate Forum!**

13-14 January 2021, at the ATRIA in Belfort

<https://hydrogenbusinessforclimate.com/>

Belfort, 16 September 2020 –Spurred on by the Hydrogen dynamic, the Hydrogen Business For Climate Forum organised by the Pôle Véhicule du Futur Competitiveness Cluster, with support from the French State, the Bourgogne-Franche-Comté region, the City of Belfort and Grand Belfort, has announced that it will be joined by two prestigious partners and is opening its early registration.

As France presented its *France Relance* recovery plan and the national strategy to develop carbon-free hydrogen in France – placing green hydrogen at the heart of the French recovery and sustainable development strategies – the Hydrogen Business For Climate Forum **announced its two new partnerships with Hydrogen Europe and Afhyprac.**

A number of prestigious guests will also be there, including Valérie Bouillon Delporte, President of Hydrogen Europe; Bart Biebuyck, Executive Director of the FCH JU; Philippe Boucly, President of Afhyprac; Damien Destremeau, President of Chereau; Pierre Etienne Franc, Vice President of Air Liquide and Secretary for the Hydrogen Council; Lucas Bertrand, Business Development Director at ITM Power; Vincent Lemaire, President of the Safra group; Hervé Gilibert, Chief Technical Officer of ArianeGroup; Yane Laperche Riteau, Business Development Director at Ballard; Mathieu Gardies, Founder and CEO of Hype; Cécile Rouillé, Managing Director of Hynamics; Cécile Prévieu, Managing Director of Storengy...

Present at the event, they will take part in plenary conferences and other expert workshops.

Early registration is already open for the event: <https://h2-bfc.b2match.io/signup>

A new transnational event aiming to bring about the hydrogen energy transition in France and Europe. Hydrogen Business For Climate is striving to shed light on the hydrogen markets, foster cooperation, initiate projects and accelerate the implementation of practical solutions in order to contribute to the creation of the Europe and hydrogen of tomorrow. The forum will be structured around **5 plenary conferences**, and **7 workshops** hosted by specialists and prestigious guests, with the aim of facilitating discussion and finding new solutions. Particularly business-orientated B2B meetings will also be organised with all Forum participants. **Site visits** will enable visitors to learn about cutting-edge company initiatives. Finally, an **exhibition space** will be provided for companies that are revolutionising the hydrogen sector. A ‘start-ups & academics’ corridor will be the space for disruptive innovation.

About Hydrogen Business For Climate

A transnational event, the Hydrogen Business for Climate Forum is organised by the Pôle Véhicule du Futur Competitiveness Cluster, with support from the French State, the Bourgogne-Franche-Comté region, the City of Belfort and Grand Belfort, in partnership with the AER BFC (the Regional Economic Agency of Bourgogne-Franche-Comté), the ADN FC (the Economic Development Agency of Nord Franche-Comté), the CCI, the EEN (Enterprise Europe Network) and FC Lab. Its mission is to bring about the hydrogen energy transition in France and Europe. Hydrogen Business For Climate is in line with international events such as the European Hydrogen Energy Conference.
