Hydrogen Business For Climate Forum

2nd forum on 8 and 9 November 2022 in Montbéliard

**International hydrogen industry meetings
to bring about and accelerate the energy transition.**

Hydrogen Business For Climate is the leading hydrogen event for professionals.

Over 2 days, this forum in Montbéliard will bring together more than 500 key experts and players, elected officials, decision-makers, industrials, energy experts, parts manufacturers, and start-ups, to explore new avenues and innovations to help deploy hydrogen in France and Europe.

Objectives: generate, develop and foster cooperation in hydrogen, and encourage businesses to accelerate the deployment of practical solutions.

On the programme for 2022

- **5 plenary conferences for progress:** strategy, forecasting and best practices. These high-level conferences feature international experts, leaders and disruptors who will talk about their vision, experience and passion.
- **World-class guests and speakers:** information and feedback from key experts.
- **B2B meetings:** prequalified, targeted meetings organised by the EEN (Enterprise Europe Network).
- **Site visits:** Nord-Franche-Comté has a leading industrial and academic ecosystem, to demonstrate hydrogen technology and projects in action.
- **1 exhibition area:** brimming with hydrogen innovations and solutions for you to discover.
- **1 gala evening:** a fun event to talk and network.

New: 3 tangible and original labs for innovation

These codesign workshops will be hosted by specialists and boosted by prestigious guests. They will harness all the key talents' expertise to create synergies and tackle tomorrow's challenges.

About Hydrogen Business For Climate

A transnational event, the Hydrogen Business for Climate Forum is organised by the Pôle Véhicule du Futur Competitiveness Cluster, with support from the French State, the Bourgogne-Franche-Comté region, the Pays de Montbéliard Agglomération, the City of Belfort and Grand Belfort, in partnership with the AER BFC (the Regional Economic Agency of Bourgogne-Franche-Comté), the ADN FC (the Economic Development Agency of Nord Franche-Comté), the CCI, the EEN (Enterprise Europe Network) and FC Lab, the ADEME. Its mission is to bring about the hydrogen energy transition in France and Europe.
