

Forum **Hydrogen** Business For Climate

The Axone, Montbéliard, Oct. 1-2, 2024

Hydrogen project factory

F R A N C E

Organized by

With the support of

In partnership with

Discuss. Decide. Deploy.

Climatic, geopolitical and economic emergencies are converging to press the issue of hydrogen at the heart of the debates. The infrastructures are being set up, the industrial dynamic is well on its way, new paths are opening up and yet, obstacles remain: technological? economic? regulatory?

1-2 October 2024

For its 3rd edition, the Hydrogen Business For Climate Forum will bring together 450 French and European decision-makers from both the private and public sectors; politicians, experts, academics, disruptors and investors, in order to...

- ✓ Compare positions
- ✓ Provoke decisions
- ✓ Accelerate transformations

... through a program at the heart of current events, which is eco/business or techno oriented, and constructed by a committee of experts in this specific sector.

Plenaries to compare points of view, discuss, debate and advance

Strategy, foresight, best practice... Our high-level panel discussions will give the floor to experts, leaders and international disruptors. Divergence? Convergence? Opinions will be expressed, questions will be asked.

The objective: to accelerate decarbonisation

7 days of B2B meetings to accelerate

Pre-organized and pre-qualified, these targeted meetings will allow you to initiate business and collaborations. With 3 extensive, in-person sessions during the forum and 5 days of virtual meetings through our platform.

The objective: to support the decarbonisation of the European economy.

UA n exhibition area and a central TV set to show and demonstrate

At the heart of the Forum, the space will bring together 50 exhibitors representing the entire H2 value chain (companies, start-ups, academics and local authorities) and an animated TV platform for interviews, pitches and announcements, creating interactivity and broadcasting all the news from the FORUM in real time.

The objective: to provide live, behind-the-scenes information about the hydrogen industry and the Forum.

Collaborative moments to progress and innovate

Led by specialists and catalyzed by our expert guests, our workshops will mobilize your vision and your talent, to move forward and create synergies.

The objective: to meet the challenges of tomorrow

Networking moments to seize every opportunity

Breaks, lunches, networking evenings: everything will be done to encourage your exchanges.

The objective: to strengthen the H2 collective dynamic

Annual strategic compass to progress?

Within 10 days, the textual and visual summaries of the plenary-debates and collaborative moments will retrace the strategic environment, the challenges, the opportunities and the proposals for action which will emerge during the Forum.

The objective: to make H2 projects and solutions sustainably competitive
